## OUR MOTTO

**"What more can one ask of life than good friends  
and many ponies."**

We went into this horse business as a hobby, but the hobby has enlarged to business proportions and we are forced to sell down our herds. We are selling not our culls, but many favorites; for instance, Toots was Gary's first show pony; Fleet was the favorite hitching pony; Lassie was one of our first palominos; Snip is a favorite pony ring pony, and so I could go on and on. However, I do this only to show you many of our ponies still have a soft place in our hearts, and we hope they will all find new, good homes with some proud new owners who will enjoy them as much as we have done.
